Group # 2: Dolch Words with a Lower Case "l (L)" in Arial font and Lucida Console

Lucida Console is often used by computers as the default font for notepad documents with a lower case L looking like the number 7. It is suggested that you avoid Lucida Console when possible for people who are learning to recognize sight words but they should be aware of this way of making a lower case L.

Compare to the same words in the complete list which has Comic Sans MS font like hand printed words..
